A taxicab, also known as a taxi or a cab, is a type of vehicle for hire with a driver, used by a single passenger or small group of passengers, often for a non-shared ride. A taxicab conveys passengers between locations of their choice. This differs from other modes of public transport where the pick-up and drop-off locations are determined by the service provider, not by the passenger ...

Creating a modern Australian temperature record from the high volumes of data collected takes a lot of work. Some of the work requires digitising records from last century's manual data entry from paper-based records to electronic databases.

Long-term temperature record: Australian Climate

GNU Manuals Online. This table lists official GNU packages with links to their primary documentation, where available. When a package has several associated manuals, they are all listed. If a package has no specific manual online, the link just goes to the package's home page (which is also linked to explicitly).
