Tennessee State Parks Earns National Accreditation. One of only two state park systems in the country to receive this honor. Read More

Tennessee State Government - TN.gov

Natural philosophy or philosophy of nature (from Latin philosophia naturalis) was the philosophical study of nature and the physical universe that was dominant before the development of modern science. It is considered to be the precursor of natural science.. From the ancient world, starting with Aristotle, to the 19th century, natural philosophy was the common term for the practice of studying ...

Natural philosophy - Wikipedia

In 1802, the English chemist William Hyde Wollaston was the first person to note the appearance of a number of dark features in the solar spectrum. In 1814, Fraunhofer independently rediscovered the lines and began a systematic study and careful measurement of the wavelength of these features. In all, he mapped over 570 lines, and designated the principal features with the letters A through K ...

3 CLEFS The clef, a symbol that sits at the leftmost side of the staff, specifies which lines and spaces belong to which notes. In a sense, the clef calibrates or orients the staff to specific notes. The three most common clefs are: The Treble clef for high range notes The Bass clef for low range notes The Alto clef for middle range notes The Treble clef (also called the G Clef because it ...
