

industrial automation and robotics pdf

Automation is the technology by which a process or procedure is performed with minimum human assistance. Automation or automatic control is the use of various control systems for operating equipment such as machinery, processes in factories, boilers and heat treating ovens, switching on telephone networks, steering and stabilization of ships, aircraft and other applications and vehicles with ...

Automation - Wikipedia

Epson Industrial Robots. Precision Automation Specialists For more than 35 years, the world's top manufacturers have relied on Epson Robots to reduce production costs, improve product quality, and increase their bottom line.
