ISACA® is a nonprofit, independent association that advocates for professionals involved in information security, assurance, risk management and governance.

Information Technology - Information Security

Information security, sometimes shortened to InfoSec, is the practice of preventing unauthorized access, use, disclosure, disruption, modification, inspection, recording or destruction of information. The information or data may take any form, e.g. electronic or physical. Information security's primary focus is the balanced protection of the confidentiality, integrity and availability of data ...

WELCOME TO THE INFORMATION TECHNOLOGY LABORATORY. The Information Technology Laboratory (ITL), one of seven research laboratories within the National Institute of Standards and Technology (NIST), is a globally recognized and trusted source of high-quality, independent, and unbiased research and data.

Information Technology Laboratory | NIST

Information technology (IT) is the use of computers to store, retrieve, transmit, and manipulate data, or information, often in the context of a business or other enterprise. IT is considered to be a subset of information and communications technology (ICT). An information technology system (IT system) is generally an information system, a communications system or, more specifically speaking ...
