CMMI and Integrated Product and Process Development (IPPD) CMMI SE/SW/IPPD Version 1.02 Roger Bate, rrbate@gte.net Diane Gibson, dlj@sei.cmu.edu Karen Richter, krichter@ida.org SEPG 2001 Tutorial New Orleans, LA March 12, 2001

### **CMMI and Integrated Product and Process Development (IPPD)**

Integrated Product Teams An Integrated Product Team (IPT) is a multidisciplinary group of people who are collectively responsible for delivering a defined product or process. The IPT is composed of people who plan, execute, and implement life-cycle decisions for the system being acquired. It includes empowered

### **Integrated Product Support Element Guidebook - AcqNotes**

â€œIntegrated Design Processâ€• (IDP), as defined below, is required in order to achieve high performance (sustainable) buildings while avoiding or minimizing incremental costs. â€œThe Integrated Design Process (IDP) is a method for realizing high performance buildings that contribute to sustainable communities. It is a collaborative process

### **ROADMAP FOR THE INTEGRATED DESIGN PROCESS**

Integrated CAE/CAD tools working with a common digital product model facilitate capture, analysis, and

refinement of product and process design data in a more timely manner. Integration of CAM tools facilitate process design/definition with fewer errors, greater accuracy, and a reduction in leadtime to production.

### **The Principles of Integrated Product Development**

BOX 3.1 An Example of Information Technology-driven Integrated Product and Process Design. In the semiconductor industry, electronic computer-aided design (CAD), also called electronic design automation, is a good illustration of how information technology can support the integrated product and process design process.

IPT Start-up Guide Page ii Integrated Project Team (IPT) Start-up Guide Table of Contents . ...

organization with different skills and points of view to produce a product or process. IPTs began to emerge in the Department of Defense in the 1980s to support concurrent engineering

#### **) Start-up Guide - Mitre Corporation**

The new product development process is a series of interdependent and frequently overlapping activities that transform an idea into a prototype and on to a marketable product.

#### **New Product Development - Engineering**

organisation, we propose that companies would greatly benefit from integrated product and process models. Such models incorporate both the product view and the process view to make the complex interactions between an emerging product and the organisation that creates it more understandable and more traceable for decision makers.
