In cultural studies, media culture refers to the current Western capitalist society that emerged and developed from the 20th century, under the influence of mass media. The term alludes to the overall impact and intellectual guidance exerted by the media (primarily TV, but also the press, radio and cinema), not only on public opinion but also on tastes and values.

Inside Higher Ed.: If you're interested in what's happening in the world today, this book is a fascinating read. Even if you're not, it's an unusually informative book about digital platforms usually examined apart from political life. Social interactions in the digital world in the context of political activity is insightfully explored through this wonderfully readable academic study.
