

level design concept theory pdf

Two-level game theory is a political model of international conflict resolution between states derived from game theory and originally introduced in 1988 by Robert Putnam.. Putnam had been involved in research around the G7 summits between 1976 and 1979. However at the fourth summit, held in Bonn in 1978, he observed a qualitative shift in how the negotiations worked.

Two-level game theory - Wikipedia

Design theory is a subfield of design research concerned with various theoretical approaches towards understanding and delineating design principles, design knowledge, and design practice.
