Living in Quadrant D - International Center for Leadership

Activities of daily living (ADLs or ADL) is a term used in healthcare to refer to people's daily self care activities. The concept of ADLs was originally proposed in the 1950s by Sidney Katz and his team at the Benjamin Rose Hospital in Cleveland, OH and has been added to and refined by a variety of researchers since that time. Health professionals often use a person's ability or inability to ...

Activities of daily living - Wikipedia

Responsible, generous, enlightened top management will develop an effective employee group because its considerate and humane practices will inevitably trickle down and permeate the organization.

Managing Human Resources - Harvard Business Review

Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...
