In the first half of The Photographer's Guide to Posing, Lindsay discusses how the camera sees, and thus how camera angle, lens choice, and perspective all affect the appearance of your subject. Lindsay then covers the five most important things that ruin a pose—such as placement of the hands, and your subject's expression and posture.

The photo below was taken on spot metering mode but, if you were to take the same photo using evaluative mode, you would end up with a completely different exposure. This is also covered in my free video training .

### **Photography for Beginners: A Complete Guide (Updated 2019)**

As a landscape photographer, you can only shoot two times a day: (1) Dawn. You can shoot about 15 to 30 minutes before sunrise, and then from 30 minutes to an hour (depending on how harsh the light becomes) afterward. The only other time you can shoot is (2) dusk.
