The Setup. We started by contacting every coatings manufacturer we could think of that offers a finish specifically for wood decking. Seventeen of them responded and sent us samples of 22 different finishes in all (see the chart).

The Great Stain Shoot-Out | Professional Deck Builder

Paint is any pigmented liquid, liquefiable, or mastic composition that, after application to a substrate in a thin layer, converts to a solid film. It is most commonly used to protect, color, or provide texture to objects. Paint can be made or purchased in many colors and in many different types, such as watercolor, synthetic, etc. Paint is typically stored, sold, and applied as a liquid ...

Paint - Wikipedia

Wood finishing refers to the process of refining or protecting a wooden surface, especially in the production of furniture where typically it represents between 5 and 30% of manufacturing costs. Finishing is the final step of the manufacturing process that gives wood surfaces desirable characteristics, including enhanced appearance and increased resistance to moisture and other environmental ...
